

FROM THE EDITOR IN CHIEF

In our aging world, the value of researches conducted by collecting, interpreting and evaluating data in a planned and systematic manner in order to contribute to science on issues that prioritize the elderly, is increasingly coming to the fore.

Based on this idea 7th SCIENTIFIC RESEARCH COURSE IN THE FIELD OF GERIATRICS, was organized by the Turkish Geriatrics Society online on 24-26th Nov, 2022.

The topics that significantly meet the requirements of the attendees both at the research and publication stage were presented by experienced faculty members.

I would like to thank the members of the organizing committee and the valuable trainers who made a significant contribution to the course with their knowledge and experience, and wish that it will be useful for the researchers in terms of their professional development, scientific studies, publications and contributions to public health.

Wishing you a safe, healthy, successful, and prosperous new year!

Prof. Yeşim GÖKÇE KUTSAL, M.D.
